DETAILED ACTION

1. This office action is in response to the amendment filed on June 28, 2006, in which claims 5-16, 22-27, 32-43 and 49-54 are presented for further examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 5-16 and 32-43, drawn to a use of managing contract data that is transferred between discrete contract management systems, classified in class 707, subclass 6.
 - II. Claims 22-27 and 49-54, drawn to a use of archiving each contract dataset identified in a suggest list receive from a procurement contract management system, classified in class 705, subclass 10.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they do not overlap in scope and are not obvious variants, and if it is shown that at least one subcombination is separately usable. In the instant case, subcombination Group II and I has separate utility such as the use of archiving each contract dataset identified in a suggest list receive from a procurement contract management system. See MPEP § 806.05(d).
4. Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2162

5. Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
